PROFESSIONAL EXPERIENCE

Software Engineer (Full-Time)

Jun 2026 – August 2026

Siddesh Technologies | Pune, Maharashtra (Remote)

- Estimating and owning delivery of client-facing mobile feature modules end-to-end — design, development, testing, and deployment — within sprint commitments.
- Integrating RESTful web services to connect front-end screens with backend systems, translating requirements into working, scalable UI components.
- Collaborating within a cross-functional Agile team through sprint planning, daily stand-ups, and code reviews, contributing to design and process discussions.

Software Developer Intern

Feb 2026 – May 2026

Siddesh Technologies | Pune, Maharashtra (Remote)

- Delivered client-facing mobile feature modules end-to-end within sprint commitments and integrated RESTful web services connecting front-end screens with backend systems.

PROJECTS

- CAREERION – Career Recommendation System** (*MERN Stack, Machine Learning*): Architected a full-stack application with a machine learning recommendation engine, secure authentication, and RESTful APIs for profile management.
- AI Chatbot – DeepSeek Integration** (*React, Azure*): Built a real-time chatbot integrating an Azure-hosted AI service via REST APIs, deployed on Azure App Services.
- Conference Room Booking Portal** (*PHP, MySQL, AJAX*): Designed a booking system with reservation, approval-workflow, and real-time availability APIs for faculty and administrators.
- Web Billing Software** (*PHP, MySQL, AJAX*): Developed a billing and inventory system with automated invoice generation and AJAX-driven, API-backed sales tracking.
- Task Tracker Application** (*React, Node.js, MySQL*): Built a full-stack task management system with a REST API backend supporting CRUD operations and real-time status tracking.
